Dear Allen:

I listened to the  
T. V. morning news  
and when I heard  
that the physicians  
had abandoned hope,  
I felt it my duty to  
telephone you again  
to beg, plead and  
importune you to  
talk to Dr. Ralph  
Kling of  
auntie whom you

STAT

STAT

no doubt <sup>2</sup> - he's  
 doctor  
called other's whom  
we know (I mean,  
he's the physician to  
many outstanding  
world figures) Dr. Thu  
called in Dr. Reinci  
for a case in Paris -  
perhaps you know the  
patient whose condition  
was hopeless. Let him  
tell you about Dr. Reinci  
whom I have not seen  
since he returned  
from the Consultation  
in France. I did hear

3.  
through which the  
patient is responding  
to the treatment.

Don't please accept  
the view of physicians  
who must necessarily  
think of their authority  
intuition should their  
opinions prove to have  
been wrong. What is  
there to lose? Dr. Revis  
is a physician in top  
standing, a member  
of all the medical  
associations - A.M.A.  
New York State Medical  
Society, etc. Dr. John  
F. Masterson, former

president of the <sup>4</sup>latter medical  
assocn, is on the Board -  
he was one of the physicians  
who came to me to explain  
that the only opportunity  
to Dr. Revic is that his  
approach - Bio-chemo-  
therapy - is new and not  
comprehended by the early  
doctors who now can  
but defend themselves  
in the face of indisputable  
evidence (patients who  
were in terminal state)  
and are now restored  
to normal living -  
well, the physicians are  
too deeply ~~and~~ entrenched  
and I'd forth an infinitely  
nausea - Let a physician  
you trust, a friend to try to  
thru and look into it. Have him  
phone preferably his own  
night -

Dr. Robert M. Farrier  
Assistant Director  
The Clinical Center  
National Institutes of Health  
Bethesda 14, Maryland

Dear Bob:

Herewith is a letter the Director has just received from his friend, Fanny Holtzman.

Will you be good enough to look it over, take whatever action you deem appropriate and let us have your recommendation as to a reply.

Again, many thanks.

Sincerely,

**SIGNED**

  
Assistant to the Director
